

Eagle Technology Open Data Terms of Use

The following terms and conditions apply to the use of the free open data that is provided by Eagle Technology within the ArcGIS Living Atlas of the World ("Data").

The Data remains the property of Eagle Technology and/or the third-party Data provider and its use is only permitted in conjunction with ArcGIS software (in accordance with the applicable ArcGIS license terms) and these Terms.

The Data is provided "as is," and Eagle Technology disclaims any and all warranties, whether express or implied.

In no event will Eagle Technology be liable to the user or to any third party for any direct or indirect loss resulting from any use or misuse of the Data and the user assumes the entire risk related to its use of the Data. The user will indemnify Eagle Technology against claims from third parties in respect of damage or loss resulting from its use of the Data.

Eagle Technology is not responsible for the use, inaccuracy, incompleteness or error of the Data and the quality of the Data is highly dependent on that of the source data used. Data is not automatically synchronized with source data which means that it may take some time before the Data is updated after any change to the source data.

It is not permitted, unless expressly agreed, to provide the Data to third parties, to distribute it, to sell it again, or to use it in navigation systems or in applications that are used in high-risk circumstances.

Eagle Technology reserves the right to modify the content of the Data it has made available, to remove parts and to improve the Data at any time, without informing you. Eagle Technology also reserves the right to periodically amend these Terms.

Eagle Technology is not responsible for any third-party website or link that appears or is referenced on Eagle Technology offerings or Eagle Technology websites. Providing links to third-party websites and resources does not imply an endorsement, affiliation or sponsorship of any kind.

References to any copyrights of Eagle Technology and third parties must always be reproduced.

Additional terms specific to the Data may apply, and these can be found in the 'Terms of Use' section for each item.

The user acknowledges the terms under which the Data is supplied and shall ensure that it will use the Data in accordance with these Terms, all applicable licences, laws and regulations and any reasonable instructions given by Eagle Technology to the user from time to time. If the user is not willing to agree to the foregoing it must not use the Data.

Version April 2026
