
Terms and Conditions for ArcGIS Online Organisation Account for a school

Thanks for your interest in learning with ArcGIS Online! Recipients must be a N.Z. primary or secondary school (public or private).

ArcGIS Online Organisation accounts provided through the Eagle / Esri GIS in Schools Program are for instructional use only.

Use of the account for any other purpose, including administrative or research purposes, or any private non-instructional use, or by anyone not officially recognised as part of the school, is not permitted.

If you are interested in using ArcGIS for any other reason, please contact Eagle at 0800-7-EAGLE Option 1.

A School's ArcGIS Online Organisation Account – the details

What is an ArcGIS Online Organisation Account?

- **ArcGIS Online** is an environment for making maps and analysing data, plus storing and sharing.
- An **ArcGIS Online Organisation account** is a private, secure online space. Government agencies, organisations, and companies use these to store and share content, and now schools can too.
- Educators can lead classes through activities, students can do projects, and everyone can take advantage of professionally produced data as well as create their own, sharing as little or as widely as desired.

I requested an account for my school. What do I do next?

- Learn about using ArcGIS Online using the resources available at <http://arcg.is/28OxDAX>. Meanwhile, watch for an email from Eagle Technology, within the next few days. Check spam filters too; if you do not see something in five business days, email gistraining@eagle.co.nz.
