for collaboration

Where are we going?

Department of
Conservation
Te Papa Atawhai

- New Zealanders gain environmental, social and economic benefits from healthy functioning ecosystems, from recreation opportunities and natural heritage, and from living our history; and
- where the agreed biodiversity outcomes are achieved, those outcomes are maintained by government for New Zealand's future.

The signatories to this Accord invite future conservation philanthropists and governments to commit to this vision and intention.

*Chris Liddell
Chairman, NEXT Foundation
Director, Hutton Wilson Nominees Limited*

*Hon. Dr Nick Smith
Minister of Conservation
22 March 2014*

GIS Requirements for collaborative projects

- Data access
- Visibility
- Data sharing
