

EAGLE TECHNOLOGY ADVANTAGE PROGRAMME

TAKE YOUR BUSINESS TO THE NEXT LEVEL

TRUSTED ADVISOR

With the Advantage Programme, you are partnered with a dedicated Advisor who works alongside your team to turn your GIS vision into reality.

Through collaborative planning, ArcGIS expertise, and ongoing strategic guidance, your Advisor helps define priorities, develop actionable plans, and coordinate the resources needed to achieve your goals.

SAMPLE ACTIVITIES

The Advantage Programme offers the flexibility to work on a range of activities. Some examples include:

- Strategy Development
- GIS Health check
- Software installation and upgrades
- Automation & Integration - FME/Python
- ArcGIS Online jumpstart
- Web application creation
- Business analysis
- Data manipulation
- Data modelling
- Mentoring
- GIS Advocacy
- System administration
- System design

Programme allocations can also be used to access Eagle Technology training courses and register for the New Zealand Esri User Conference
